

PROMPT DEFINITIVO (ANTI-ERRO + PADRÃO IMOBILIÁRIA)

Esse aqui é o que você usa pra rodar de novo e chegar no nível “material de construtora premium”:

"Ultra realistic humanized architectural floor plan based EXACTLY on the provided blueprint. STRICTLY preserve the original geometry, layout, wall thickness, room sizes, openings, doors, and windows. DO NOT modify any structure.

Maintain ALL room names exactly as written in Portuguese and correctly spelled: Sala/ Cozinha, Suíte, Quarto 1, Quarto 2, Closet, W.C, W.C Suíte, Lavanderia, Garagem, Piscina, Área Gourmet, Hall, Corredor lateral, Entrada garagem. Keep text positions identical and clean, legible architectural font. Top view orthographic (no perspective distortion).

Apply high-end humanization: – fully furnished rooms with correct scale (beds,

sofa, dining table, kitchen, wardrobes) – modern luxury residential interior design – premium materials: wood, large porcelain tiles, concrete, glass – neutral color palette (beige, gray, warm wood tones)

Outdoor: – realistic swimming pool with water reflections and light refraction – gourmet area with barbecue and countertop – landscaped garden with grass and tropical plants – garage with realistic modern car

Lighting: – natural sunlight at 9:00 AM – soft shadows consistent with sun direction – realistic global illumination and ambient occlusion

Visual: – ultra sharp, highly detailed textures – clean composition (real estate brochure style) – 4K resolution or higher – no

distortion, no redesign, no missing labels

ABSOLUTE RULE: Do not change the floor plan in any way. Keep it identical to the original blueprint."

VISÃO DE MERCADO (sem romantizar)

A diferença entre “imagem bonita” vs
“imagem que vende” é: clareza + fidelidade +
leitura rápida

Se o texto dos ambientes falhar → cliente
perde confiança

Se o layout mudar → você perde
credibilidade técnica

PRÓXIMO NÍVEL (onde você ganha
dinheiro de verdade)

Te dou duas rotas estratégicas:

1. Padrão Construtora (escala)

mais clean

menos decoração

foco em leitura rápida

ideal pra volume

2. Alto Padrão (margem alta)

mais textura, luz, storytelling

piscina + gourmet mais valorizados

sensação emocional forte
